

P/F ATLANTIC PETROLEUM

# CONDENSED CONSOLIDATED INTERIM REPORT

FOR THE 3 MONTHS ENDED 31st MARCH 2023

Faroese Company Registration No/VAT No: 2695/475653

#### **LOOKING FORWARD**

Following a successful workover performed by the operator production on the UK Orlando field recommenced in Q3 2022.

Atlantic Petroleum receives a 2% revenue share in deferred consideration from the Orlando field production up to the first 5MM barrels of Orlando production. Thereafter the deferred consideration increases to 4.35% of the sales proceeds. The deferred consideration receivable is now valued at DKK 45.3MM.

Recommencement of oil production from the Orlando field was an important milestone for Atlantic Petroleum. The expectation is that the field will produce at stable rates in 2023 A steady source of revenue is a pre-requisite to achieve a solution to the Company debt, which is still the Board's main priority.

The activity level in Atlantic Petroleum has been kept to a minimum in the period without cashflow to limit costs as much as possible. The G&A cost for 1Q in 2023 was DKK 0.9MM. The Company expects to be cash generating in 2023 if operations on the Orlando field proceed as planned. The total debt is expected the decrease in 2023.

There is still uncertainty regarding the Going Concern status of the Group. The ability of the Group to continue as a going concern is dependent on a debt solution on the bank debt and the convertible debt. Although the outcome on a potential debt solution is uncertain, the Board believes that a solution is possible.

For this reason, the accounts have been prepared on a going concern basis. In the event the Group is unable to continue to trade, significant downward adjustments would be required to the fair value of the Group's economic interest in the Orlando asset to present the value of these assets on a break-up basis.

#### **HIGHLIGHTS & OUTLOOK**

Highlights for Q1 2023 were:

G&A cost was DKK 0.9MM

Operating loss was DKK 5.4MM

Net loss was DKK 6.1MM

Net assets/share-holders equity was DKK -104.0MM

Bank debt was DKK 59.4MM

The Board will prioritize a solution to the company debt. Pending a debt solution, the Group will be actively pursuing growth through participation in production or near production assets in low political risk countries in the Northern Hemisphere.

#### **NOTES TO THE ACCOUNTS**

#### 1. Going Concern

It was advised on the 22nd of March 2019 that LOG has entered into administration (an insolvency term within the United Kingdom) and will not advance further funds under the facility agreement.

The terms of the LOG facility restrict the Company from seeking alternate funding means, however it can be reported that these restrictions were lifted by LOG's administrators. Atlantic Petroleum has subsequently secured a bridging loan of DKK 7.5MM which has not been fully drawn. The Bridging loan DKK 5.0MM was secured in 2019, increased to DKK 6.0MM in 2020 and increased again after year-end 2021.

A full solution on the debt situation has not been achieved, but it remains priority in 2023. The Orlando field production commenced in March 2019. Initial production proved significantly lower that the expected 10,000 bopd and has been around 2,500 bopd.

Due to issues with the completion equipment in the Orlando well a workover was planned for 3Q in 2022. The workover performed by the operator on the UK Orlando field was successful and production recommenced in Q3 2022.

The Board is of the opinion that a resolution on debt is the first step to address the deficiency in shareholders' funds. The Board intends to assess the need for additional equity once the debt situation is clearer, or potentially do so in combination with a debt resolution.

Nevertheless, the Company, its Board and Management are confident that a solution with regards to the facility provided by LOG and a solution on the bank debt can be achieved. This, combined with the expectation of positive cash flow from Orlando in 2023, means that the Board is of the view that the Company can proceed as a going concern business with shareholder value preserved.

The financial projections for 2023 indicate that the Company, following the successful workover of Orlando, does not require additional funding in 2023. However, a solution on the bank debt and the convertible debt is required.

The deferred consideration receivable on the Orlando field is currently valued at DKK 45.4MM. Reserves are based on the information in Tailwind Energy Chinook Ltd (the operators) annual accounts 2020.

Based on this the reserves are estimated to 6.1MMBbl.

Further details on the deferred consideration receivable from the sale of Orlando is included in note 19 to the consolidated accounts.

There is material uncertainty regarding the going concern status of the Group. The ability of the Group to continue as a going concern is dependent on getting a solution on the debt workover.

Dialogue with LOG and Betri Banki is ongoing and although the outcome is uncertain, the Directors believe that the matter can be resolved so that the Group will be able to meet its obligations. For this reason, the accounts have been prepared on a going concern basis.

Provided a debt solution is not forthcoming, and the Group is unable to continue to trade, significant downward adjustments would be required to the fair value of the Group's economic interest in the Orlando asset to present the value of the asset on a break-up basis.
