

P/F ATLANTIC PETROLEUM

CONDENSED CONSOLIDATED INTERIM REPORT FOR THE 6 MONTHS ENDED 30th JUNE 2018

Faroese Company Registration No/VAT No: 2695/475653

MAINTENANCE OF THE 2018 PLAN

The stability and plan reported end last quarter has been maintained with priority focussed on cost management aligned to the Company's financial support. When planned revenues arise the company will not be overburdened by unmanaged liabilities. Nevertheless, the London Oil and Gas facility is allowing Atlantic Petroleum to investigate new opportunities, which are ongoing with confidential restrictions and subject to strict risk managed parameters

The Orlando field progresses in the sound hands of Decipher Energy with Atlantic Petroleum continuing to receive updates that the field remains on track to deliver first production by the end of this year. Accordingly, Atlantic Petroleum sees no reason to adjust its position that revenue income forecasts reported in previous reports remain on track.

The long running process of getting all parties aligned in a settlement agreement on Blackbird and Ettrick has concluded with all agreements finalised. The remaining element concerns the longer term guarantee aspects with the details agreed in principle. This final step will be concluded imminently. Having this matter resolved in 2018 will be a major achievement and remove the significant burden carried from Atlantic Petroleum's past.

License P2112 (Badger field) is one coming from Atlantic Petroleum's past and with a higher risk profile than projects being considered now (see Note 1 below). The Company is a 33% equity partner alongside Holywell, and together has invested, during this report period, into reprocessing of existing seismic data. The outcome is anticipated as being higher resolution geophysical detail and ability to better risk grade reserve structure and potential. Once this work is complete (planned for mid-August) a period of specialist interpretation occurs and Atlantic Petroleum will temporarily engage its own technical expert to determine whether there is upgraded asset value and justification for involvement in physical appraisal work.

If factual news develops on any of the above matters Atlantic Petroleum will make separate announcement(s) that will be un-tied to the reporting cycle.
